

KAIROS OUTSIDE

Protection of Guest/Team/Assets

If an individual leaves the group during the course of the Weekend, the Advising Leader needs to be notified and assign 2 women to escort her back to her sleeping area (NEVER use someone in leadership, a Table Leader, or Spiritual Director for this). If the Team member or Guest is in an individual room, the Team members need to periodically check on the Team/Guest to ensure she's okay. If lodging is with a roommate or a dorm type setting, the escorts need to stay in sight of the Team/Guest while she is away from the group. Do not hover, just reassure her that you are there to make sure she is okay.

This policy is being instituted to protect the Guests and Team, as well as their belongings, so that everyone is safe and can enjoy the Kairos Outside Weekend knowing they as well as their belongings are safe.
